The Creation Museum

<http://creationmuseum.org>

The state-of-the-art 75,000-square-foot museum brings the pages of the Bible to life, casting its characters and animals in dynamic form and placing them in familiar settings. Adam and Eve live in the Garden of Eden. Children play and dinosaurs roam near Eden's Rivers. The serpent coils cunningly in the Tree of the Knowledge of Good and Evil. Majestic murals, great masterpieces brimming with pulsating colors and details, provide a backdrop for many of the settings. You will find Inspiring Exhibits, Theater Excitement and many Outdoor Life experiences. Adults and kids alike rave about the *Zipline*. You can even have lunch at Noah's Café.
